Year 1 Worksheet 6a

Maths task : Cut of the numbers and arrays. See if you can match them together, You could time yourself to see how quickly you can do it, and maybe challenge someone to try and beat your time.

Challenge: Can you write number sentences to match each array. E.g. 2 x 2 = 4

Please find the cards to cut out on Worksheet 6b. You may also choose to draw your own cards together to play the matching game again with different numbers and arrays.
