Worksheet 3

We have read two books about kites recently. Make your own kite (you may need an adult to help) using string, a carrier bag, some wood and a bit of wind.

Firstly, have fun playing with it! ;) then write a set of instructions to make a kite. Remember; all instructions need an imperative (bossy) verb such as get, pull, push, sew, stick and time conjunctions help us know what to do when, first, afterwards, then, finally…

Draw or take a picture of your kite.
