Remember: I = 1, V = 5, X = 10, L = 50, C = 100

If the biggest number is first, add on the small one. If the smallest number is first, subtract the small one from the large one.

Use your knowledge of Roman Numerals to solve these problems

1a. Using these numbers, find as many ways as you can to complete this part whole model.

VI | XII | XIV | VIII

2a. Use these Roman numerals to write 3 calculations using addition or subtraction totalling no more than 20.

IV	XVI
XIX	VI
