Each number on the clock represents 5 minutes. So we can count round in 5s.

Do the clocks show the same time?
What is the same about the clocks?
What is different?

Digital clocks have an hour and minute display, separated by a colon.
The hours will always be before the colon.
The minutes will always be after the colon.

1. What time is showing on these clock faces?

2. Draw the hands on the clock face to show the times shown on the digital clocks.

04:15	09:30	11:45	12:15

3. Match the analogue clock faces and digital times.

11:20

5:55

9:15

7:35

7:10

5:25

2:45

11:05

Answers

1. What time is showing on these clock faces?

08 : 15 | 02:30 | 06:15 | 02:45

20 :15 | 14:30 | 18 : 15 | 14:45

2. Draw the hands on the clock face to show the times shown on the digital clocks.

04:15 | 09:30 | 11:45 | 12:15

3. *Match the analogue clock faces and digital times.*
