

Wb 04.05.20 Worksheet 6 - Counting back

Solve the calculation by counting back on a number line.

CHALLENGE— Can you think of a calculation for your parents to solve? Check they use the number track properly!

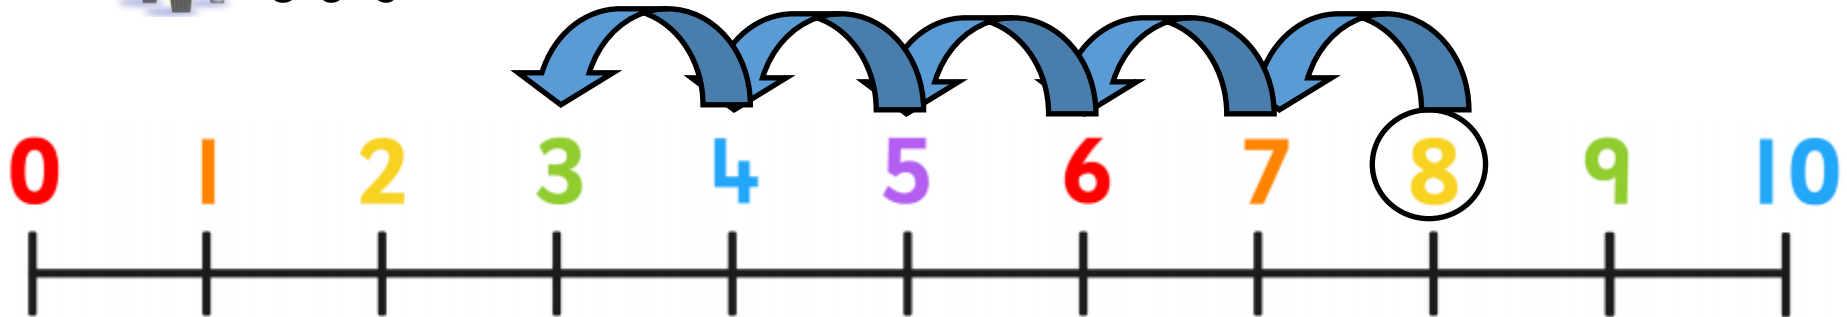

I think I need  
to count back.

Isha was practising counting back on the big number track outside.

She started on 8 and counted back 5. She landed on 3. Isha remembered not to count the number she started on — 8. She started counting once she had jumped off 8.

$$8-5=3$$

$$6-2=$$

$$10-8=$$

I think I need  
to count back.

$$9 - 3 =$$

$$5 - 1 =$$

$$8 - 7 =$$

$$4 - 4 =$$
