

Worksheet 7 Year 1

Maths task - solving multiplication word problems. Feel free to use practical resources to help work out the answers.

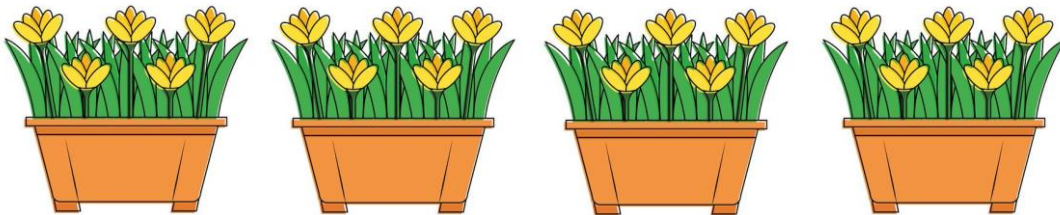

1. How many pencils are there in *total*?

There are 5 pots of _____ pencils.

So, there are _____ pencils altogether.

2. Jenny is planting flowers into 4 pots. She puts 5 flowers in each pot.

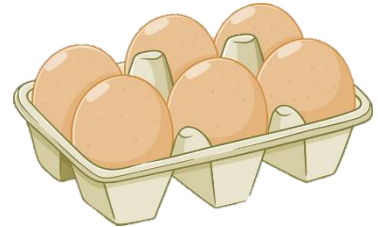

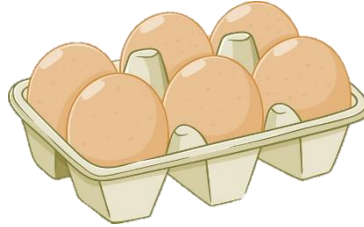

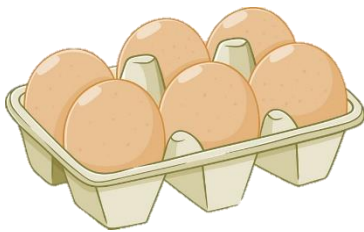

How many flowers are there in 4 pots?

There are _____ flowers altogether.

3. Can you draw a picture and make up a multiplication word problem to match?

E.g. Sam has 3 egg boxes. He puts 6 eggs in each. How many does he have altogether?

CHALLENGE:

is double

= 7

= _____
