Count how much the coins are worth. Then draw more coins to make the totals shown.

5p and 10p coins only. It may help to have some coins while you do this activity.

(5p 5p)	30p
(10p 5p)	35p
(5p)	20p
(10p)	40p
(10p 10p)	45p

A rubber ball cost 42p and a pencil cost 12p. How much did they cost altogether?

Can you write your own money problems?
