

$7 + 6 = 13$ So I exchanged ten of the ones for a ten and put the remaining 3 in the ones column.

Method Practise

Do I need to exchange?

--	--	--	--	--

	5	3	7
+	2	1	6
	7	5	3

	5	4	8
+	2	3	4

	3	4	7
+	1	7	2

	4	8	2
+	2	5	3

I can't do 3-6. So I need to exchange a ten for 10 ones.

I now have $13-6 = 7$. I've now got 4 tens left.

Do I need to exchange?

		4	1
	4	5	3
-	2	1	6
	2	3	7

	5	6	8
-	2	1	9

	4	6	9
-	2	8	3

	7	4	3
-	2	6	1
