

**Imagination at the ready! For this task you will need to use all your powers of description to put the reader in the picture! Remember to paint the picture with words!**

**Write a description of the scene. Imagine you have just discovered it. Where is it? What is it?**

**Use your senses to help you to develop your description. Look around you. What can you see (think about the colours as well)? What can you smell? What can you feel? Are you going to go through the doorway? How do you feel?**

**You can write just a description or you can carry on and write a whole story. The choice is yours! You can use the lined paper below or use your own if you want to.**

**Remember to use adjectives, fronted adverbials and expanded nouns phrases. As an extra challenge can you include a simile or metaphor?**
