

Story Starters

This picture by the artist Yuumei is called the Midnight Sun. It combines the greenhouses of Kew Garden and the Space Exhibit in London.

What do you think is happening here?

What could she be collecting and why?

What time of day is it? Do the colours suggest a time or atmosphere?

What does the structure remind you of?

Use the image to create 5 different story starters e.g. the setting, introducing characters, the weather, action, speech, time of day, etc.

Check out different books at home and create a poster of different story starters.
