

Non-Chronological Report Planning

Riverbank Animals

Research the variety of animals that live along the British riverbanks. Discover how this eco system supports the mammals, birds and insects that thrive in this environment. You may choose a single animal or a variety of animals for your non-chronological report . Use the planning frame below to assist you in organising your ideas and research.

Research tips:

-  Mammal/insect/bird
-  Habitats
-  Food/Diet
-  Appearance
-  Species
