

## Wk. 29.06.20 Year 6 Project 1

### SHQ: How do we create a movie poster?

Over the next two work packs, we will be completing tasks as part of a mini-project based on films and movies. The idea is that you create your own movie using a combination of writing, drawing and imagination.

The first step is to invent a movie!

Think about the genre you wish to base your movie on, for example:

- Action/adventure
- Science fiction
- Fantasy
- Comedy
- Musical
- Animation
- Historical drama

Your choice will probably depend on your personal preferences for movies.

Next, you need to think of a name for your film. Here are some open-ended questions that might help your thoughts:

- Who will be the main characters?
- Where will the film be set? (In the jungle, in a city, in space?)
- What will be the main theme of the film? (Usually there is a problem that characters have to overcome)
- What will make people remember the title?

Now you have some ideas, the first activity is to create a film poster to advertise your film. This will help you to develop your thoughts so that you can complete more detailed activities after this.

Included below are some movie posters to encourage you to think about their design.

Consider:

- The significance of the images included e.g. the characters; what they are doing etc.
- The layout (simple with bold images or complicated and busy)
- The style of the writing and if there are any slogans
- The colours and design of the title
